

# Metrics for Data Management Campus

2026-05-05

## A) OpenLearnrity

### Direct measures:

- **user\_id**: user identifier.
- **module\_title**: module title.
- **last\_login**: date of last login in the module. This variable overwrites each time the same user logs in.

### Derived variables:

- **logged\_users**: number of logged users per module during a specific period of time. Calculated as count of unique users per module.
- **logged\_users\_week**: number of unique users per week for each module. Calculated as count of unique users grouped by week (from last\_login) and module.

**Figure 1. Number of logged-in users per week for each module in OpenLearnrity.** Selected time period: Jan 2026 up to now.

Marketing campaign

## B) Matomo for OpenLearnity

### Direct measures:

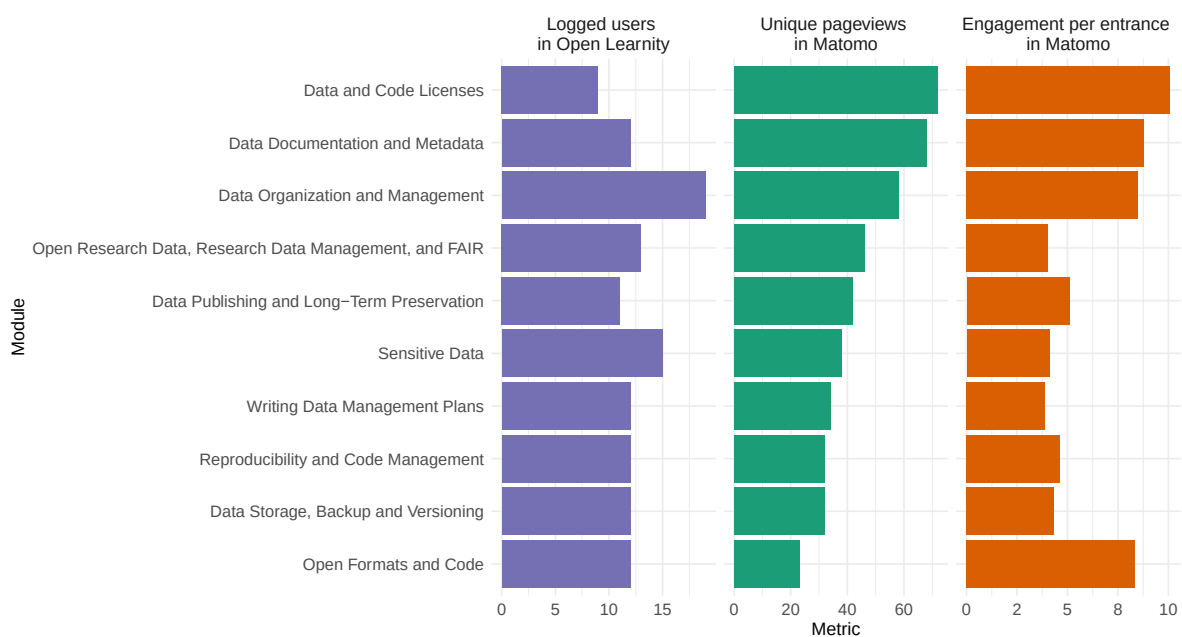

Data from Page Titles.

- **module\_title**: module title.
- **unique\_pageviews**: unique page views of the module’s “About” page (counted once per session).
- **entrances**: number of sessions that start on this page.
- **actions\_after\_entry**: number of interactions (e.g., clicks, downloads, pageviews) performed after the session starts on this page.

### Derived variables:

- **engagement\_per\_entrance**: average number of user interactions generated after sessions start on the “About” page of a module.  
Calculated as  $\text{actions\_after\_entry} / \text{entrances}$ .

**Figure 2. User behaviour from Open Learnity and Matomo.** Selected time period: Jan-Mar 2026.

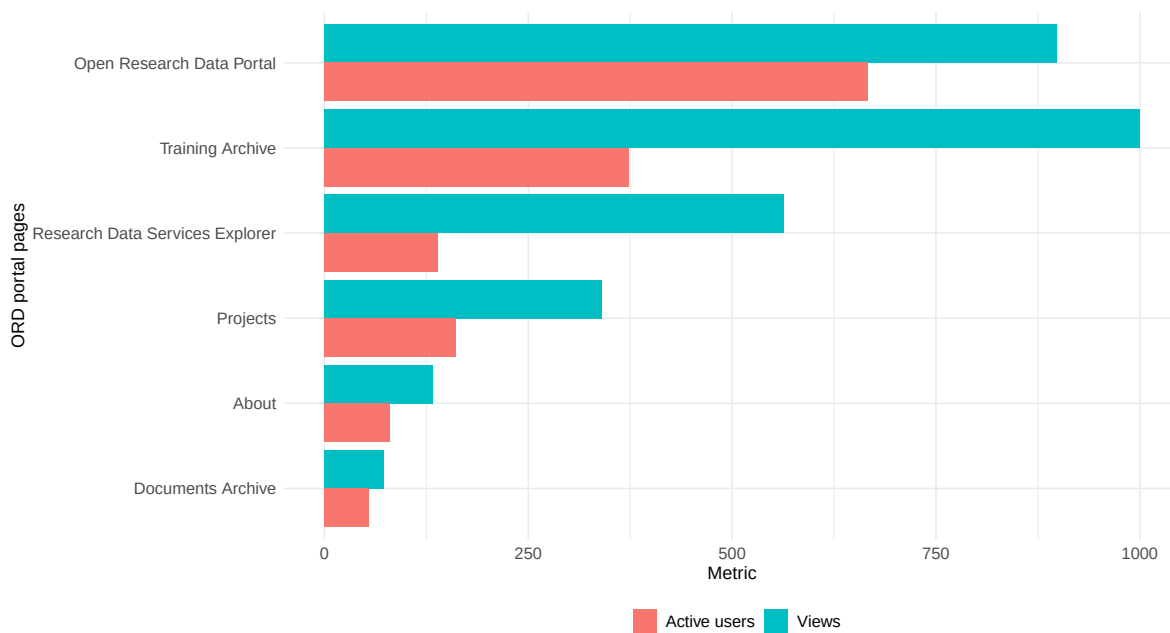

## C) Google Analytics for ORD Portal

Direct measures:

- **page\_\_title**: page title.
- **views**: total number of page views. A proxy of intensity of use per page.
- **active\_\_users**: number of users who engaged with the page (i.e., session lasted 10 seconds or longer). A proxy of reach per page.

**Figure 3. Page views and active users for the ORD pages in Google Analytics.** Selected time period: Jan-Mar 2026.

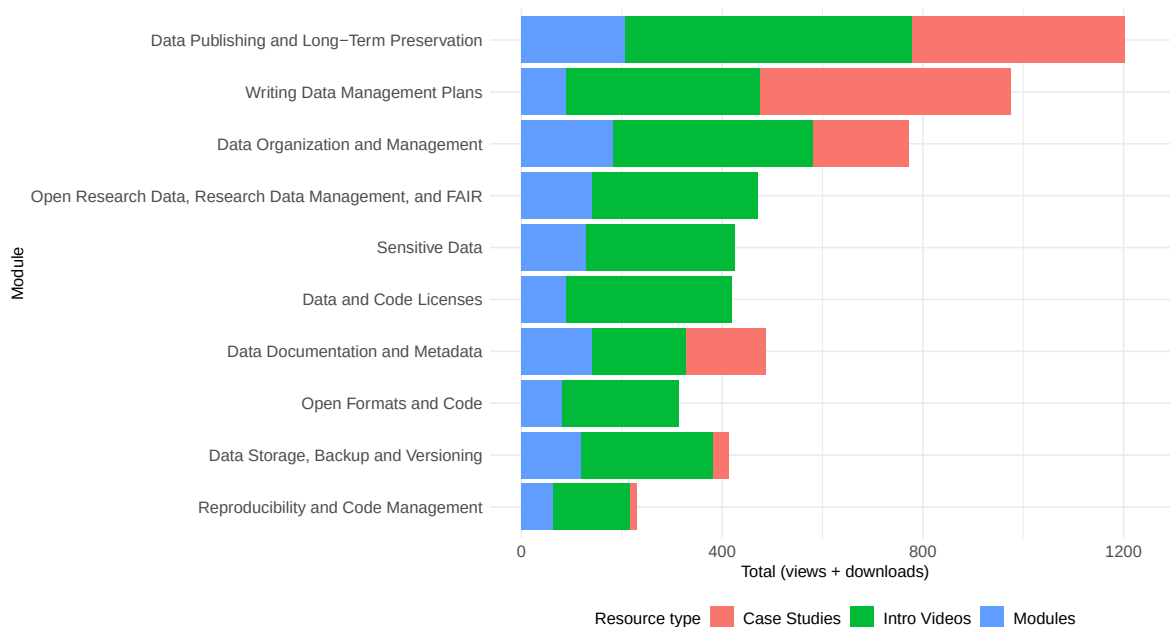

## D) Zenodo OER

### Direct measures:

- **record\_\_id**: zenodo resource identifier.
- **resource\_\_title**: resource title.
- **resource\_\_type**: lesson, presentation, video\_audio.
- **views**: number of times resource was viewed.
- **downloads**: number of times resource was downloaded.

**Figure 4. Total engagement by resource type and module in Zenodo.** Full record (no temporal filtering).

**Figure 5. Number of views and downloads by resource type and module in Zenodo. Full record (no temporal filtering).**
